THE GUILD OF ST. FRANCIS HOSPITAL

Heart To Heart Luncheon

Wear Red For Women's Heart Health

Thursday, January 29, 2026

Chef Robert Graham, MD, MPH
Global leader in the fields of
Integrative, Functional and Culinary Medicine.

Dr. Robert Graham, MD, MPH—known as “Dr. Rob, the Chef”—is a global leader in Integrative, Functional and Culinary Medicine. A Harvard-trained physician, researcher, public health scientist, TEDx speaker and chef, he is board certified in both Internal and Integrative Medicine. For over 20 years, Dr. Graham has pioneered the integration of food and lifestyle into medical care. Together with his wife, Julie, he co-founded FRESH Medicine, based on the five ingredients of health: Food, Relaxation, Exercise, Sleep, and Happiness. He holds a Master’s in Public Health from the Harvard School of Public Health, completed multiple Harvard fellowships in Internal Medicine and Integrative Therapies, and earned his culinary degree from the Natural Gourmet Institute in New York.

A passionate advocate for “food as medicine,” Dr. Graham is recognized internationally for his expertise in culinary medicine, nutrition and lifestyle-based care for chronic conditions such as diabetes, hypertension, obesity, autoimmune disease and mental health disorders. Beyond his clinical work, he has taught over 1,000 healthcare professionals to cook whole food, plant-based meals and created the first edible rooftop garden at a New York City hospital. Now serving as the Inaugural Medical Director of Integrative Medicine and Optimal Health at Catholic Health, Dr. Graham aims to transform the traditional sick-care system into a true health-care model—one that prioritizes evidence-based, integrative and functional approaches to wellness.

THE GUILD OF ST. FRANCIS HOSPITAL FOUNDATION
